Home security , fire security , community safety

Information fact sheet January 2009

Thank you for reading this fact sheet. This fact sheet will briefly outline the services we can provide for the local Community to provide safety and security while allowing the best possible affordability for elderly community members. Our services fall into three main areas.

Intruder security Burglar alarms and installed safes

Fire security Linked smoke alarms that activate external sirens and telecommunicating control panels

Community security Panic buttons, Distress alerts, Mobility sensors

Fastalarms are YALE wirefree security system specialists. We install the full range of YALE security products from Simple viewers to front doors to full wirefree security systems.

INTRUDER SECURITY

Our initial system is the YALE standard alarm

This system is battery operated and wirefree meaning

Minimal intrusion to the recipients home and a typical

Installation time of around two hours. Operated by a

remote keypad with a user defined pin code or by

A remote keyfob similar to a car remote. A linked smoke detector

Also affords help and protection from **fire** by activating both its own

Internal sounder and the external intruder alarm siren in the event of

Smoke. Additional panic buttons can be placed around a home to

Enable the alarm to be manually activated to either scare intruders in

The garden or summon help from neighbours.

Linked smoke alarm

Help button

Remote keyfob

YALE standard alarm

YALE standard alarm , 1 x 110db siren , 2 x PIR movement sensors, 2 x door contacts , 1 x remote Keypad with user defined pin code.

Simple operation , Battery life 2 - 3 yrs easily replaced. Up to twenty devices can be added to a system Including pet friendly sensors for elderly with pets up to 27kgs.

This is the basic system offering quick installation , a visual deterrent , easy operation and flexible Options. The costs of these systems are minimal starting at only £159.99 for the standard alarm fully Installed. Smoke detectors can be added for only £35 installed , help button for only £20 installed and Remote keyfobs for only £20 installed.

continued

Our next security option is
The installation of domestic safes

We install the full range of YALE domestic safes. These Safes are ideal for keeping cash secure and medicines Safe from loss. The safes can be either keypad operated Electronically or opened using provided keys for back up.

Fully installed prices range from £60 to £200 dependent On safe chosen. Range includes standard safes £1000 cash and £10,000 valuables rated and £2000 cash and £20,000 valuables rated with Sold secure police recommendation.

Community safety

We also offer the installation of the YALE distress alert. This distress alert

Panic button operated with automatic dialing of up to 3 numbers with no monthly subscription fee.

Pre-record your own message and wear the wireless pendant.

Easy to program me with a radio transmission of up to 50m.

Battery back up as an option (4 x AAA).

We can deliver and install these devices to the recipients home Including the programming of the telephone numbers.

Further to this we are able to install the **YALE premium alarm**

This alarm system is control panel based and has the advantage of calling out through a telephone land line in the event the alarm is activated .

All the sensors can be mixed and matched to provide a tailor made solution including as previously mentioned linked **smoke alarms, help buttons and remote keyfobs.**

In addition this system comes with an inbuilt **MOBILITY CHECK**

Should the systems infra red movement sensors not detect any movement within a predetermined Time of 4 , 8 or 12 hours then the alarm will be activated and the control panel will telephone the Numbers programmed into the system.
